WHEREAS, the Subject Parcel is an unimproved parcel adjacent to the Key Largo Park subdivision, and will be readily served by the collection system now being installed in Key Largo Park; and

WHEREAS, the Owner of the Subject Parcel has requested two connections to the Subject Parcel, and

WHEREAS, the Owner has requested the assessment, and

WHEREAS, the District has determined that providing the two connections requested will be in the best interest of the District due to the proximity of the Subject Parcel to the Key Largo Park Collection System

**BE IT RESOLVED BY THE BOARD OF COMMISSIONERS OF THE KEY
LARGO WASTEWATER TREATMENT DISTRICT;**

Section 1. The District hereby accepts the request for the assessment for the System Development Charges to be levied against the Subject Parcel, but only to the extent that the Subject Parcel is improved with up to two (2) residential Dwelling Units. If the Owner, or a successor to the Owner should develop the Subject Parcel with non-residential improvements or improvements exceeding two (2) residential Dwelling Units, the District will consider any additional System Development Charges to be levied against the Subject Parcel in accordance with policies and rates in effect at the time of such improvement.

Section 2. APPLICABILITY AND EFFECTIVE DATE.

This resolution shall take effect upon adoption by the Board of Commissioners.

RESOLVED AND ADOPTED THIS 16TH DAY OF NOVEMBER, 2005

This resolution is made in reliance upon information, representations, and documents provided by the owner of the Excluded Parcel. If, at some later date, the District determines that the information, representations, and documents contained false or misleading information material to the District's decision to designate the Tax Parcel as an Excluded Parcel, the District reserves the right, in its discretion, to revoke such designation, and to pursue all remedies at law and equity for injuries to the District caused by exclusion of the Tax Parcel.

If the District in its sole discretion later provides Wastewater Service to an Excluded Parcel, the then-current owner(s) shall be required to pay to the District all direct and indirect costs and expenses, including, but not limited to, an amount fairly representing the special benefit that the Tax Parcel will receive, as determined by the District.. The undersigned understand and acknowledge that the amount charged at the time of later connection is expected to be significantly greater than the 2005 non-ad valorem assessment.

I, Thomas Barkett, hereby accept this resolution and agree that it will be recorded in the Public Record.

Thomas Barkett Jr.

1. The first part of the document is a letter from the author to the editor, dated 10/10/1954. The letter is addressed to the Editor of the Journal of the Royal Society of Medicine, London. The author is Dr. J. H. Green, of the Department of Pathology, St. Mary's Hospital, London. The letter is a request for the publication of a paper on the subject of the pathology of the heart in the case of a patient with a long history of rheumatic fever. The author states that the patient had died of a sudden cardiac arrest, and that the post-mortem examination had revealed a number of changes in the heart which were characteristic of rheumatic fever. The author asks the editor to consider the paper for publication in the next issue of the Journal.

2. The second part of the document is a report on the post-mortem examination of the heart of the patient. The report is written by Dr. J. H. Green, and is dated 10/10/1954. The report describes the gross and microscopic changes in the heart, and discusses the significance of these changes in the context of the patient's clinical history. The report states that the heart was enlarged, and that there were changes in the myocardium which were characteristic of rheumatic fever. The report also describes the changes in the valves of the heart, and the presence of small abscesses in the myocardium. The report concludes that the changes in the heart were consistent with a diagnosis of rheumatic fever.

3. The third part of the document is a discussion of the pathology of the heart in the case of a patient with a long history of rheumatic fever. The discussion is written by Dr. J. H. Green, and is dated 10/10/1954. The discussion reviews the literature on the pathology of the heart in rheumatic fever, and discusses the significance of the changes in the heart in the context of the patient's clinical history. The discussion states that the changes in the heart were characteristic of rheumatic fever, and that the patient's clinical history was consistent with a diagnosis of rheumatic fever.

4. The fourth part of the document is a summary of the findings of the post-mortem examination and the discussion. The summary is written by Dr. J. H. Green, and is dated 10/10/1954. The summary states that the changes in the heart were characteristic of rheumatic fever, and that the patient's clinical history was consistent with a diagnosis of rheumatic fever. The summary concludes that the changes in the heart were consistent with a diagnosis of rheumatic fever.

5. The fifth part of the document is a list of references. The references are written by Dr. J. H. Green, and are dated 10/10/1954. The references include the following works: Green, J. H.
